

# Why travel insurance? We'll tell you.

You've invested your time, money and dreams into this trip. Let's protect it.

## Even the best trips have bumps in the road

Common reasons travel insurance comes in handy.

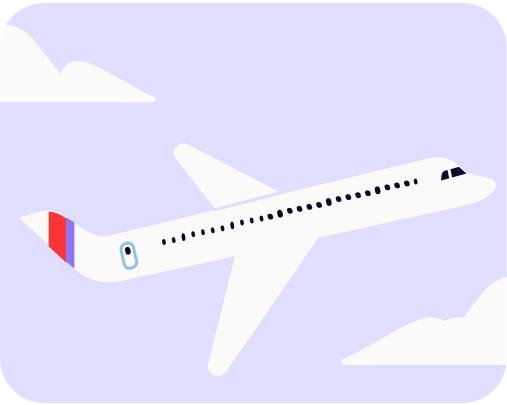

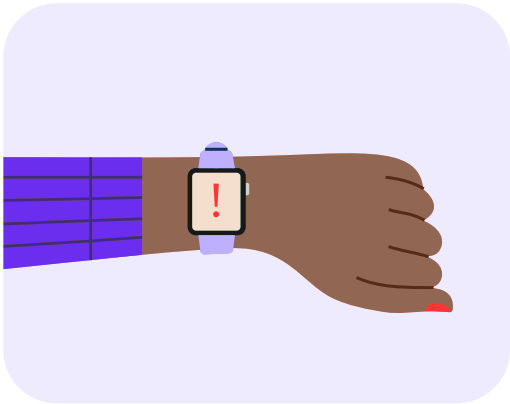

### Your health

Waking up sick in a new destination or taking a fall during a tour shouldn't mean derailing your entire trip. Navigating foreign clinics and facing unexpected medical bills is a stress no one should have to handle alone.

### Unexpected emergencies

A sudden family emergency back home or an unexpected event can force you to cut a trip short or cancel it altogether. The last thing you need is the added weight of losing the money you invested in your trip.

### Trip delays or cancellations

A major trip delay or cancellation doesn't just waste your time; it creates a domino effect of stress that can result in missed connections, lost hotel nights and the headache of rebooking everything on the fly.

### Your luggage goes on a trip of its own

You've arrived, but your bags haven't. Now you're scrambling to buy essentials instead of enjoying your first day. It's a frustrating and expensive start to any vacation. Soften the blow with coverage that helps you get things back on track.

# Whole-trip travel protection that puts you first

At Faye, we're built for the way you actually travel. We've replaced old-school insurance with smart, proactive protection designed to be there when you need us most.

Rated 4.8/5 stars ★★★★★

Here's how we help you overcome potential bumps in the road, all via our award-winning app:

### Telemedicine

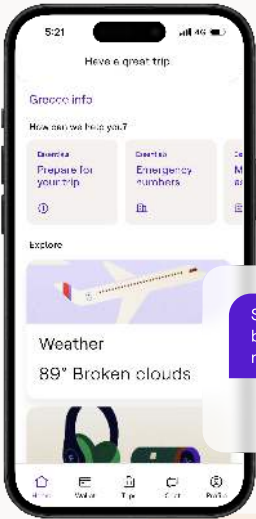

Feeling unwell when abroad? We'll connect you with Air Doctor's network of 20K board-certified doctors for a virtual consultation, so you can get medical advice without the stress of finding a local clinic or urgent care.

Claim approved!

### Digital claim filing

Forget stacks of paperwork. With Faye, you can file a claim in minutes. We made it simple and transparent, just like it should be. Simply share details about what you're claiming for, the dates, the people impacted and receipts and helpful documents.

### 24/7 assistance

Lost your passport? Need to find a nearby pharmacy? Want tips on the best places to dine to avoid a tourist-trap? Our team of travel experts is available 24/7, ready to provide support whenever you need it. We're your problem-solvers, on demand.

Saw your connecting flight's been canceled. Sending you new flight options ASAP!

OMG, wow thank you!

### Fast reimbursements straight to your phone

When a claim is approved, we don't make you wait. We can send reimbursements straight to your phone's wallet, so you can get funds fast and get your trip back on track. Want to send them to your bank account? No problem, you can do that in the app too.

| If this happens...                                                                                                           |  | ...we've got you covered.                                                                                                        |
|------------------------------------------------------------------------------------------------------------------------------|--|----------------------------------------------------------------------------------------------------------------------------------|
|  <b>Sickness or Injury</b>                |  | We'll help you find care, cover eligible medical bills and give you access to telemedicine right in the Faye app.                |
|  <b>Trip cancellation or interruption</b> |  | If you need to cancel or cut your trip short for a covered reason, we'll reimburse your non-refundable trip costs.               |
|  <b>Travel delays</b>                     |  | When delays happen, we'll send funds for meals and hotels straight to your phone's wallet.                                       |
|  <b>Lost or delayed luggage</b>           |  | If your bags are lost or delayed, we'll reimburse you so you can buy the essentials you need and get back to enjoying your trip. |
